

Process Maintenance Mechanic Apprentice

City Brewing Company, a premier beverage co-packer located in La Crosse, WI, is currently seeking self-motivated and team-oriented candidates to sponsor as an Apprentice. This position will complete in- school and on-the-job training in compliance with the State regulated program. Upon completion, the candidate will work as a Process Maintenance Mechanic.

Apprenticeship training includes repair and preventative maintenance work on pumps, valves and gearboxes; facilities maintenance, troubleshooting emergency maintenance problems; fabrication and modification of components to improve manufacturing processes; and maintaining records, logs and files as required.

Ideal candidate has one year experience in related course work or work experience. Must be available to work any shift and work overtime as required. Must have excellent problem solving and communication skills.

City Brewery offers a competitive wage and benefits package. If you are interested in joining our team, send your application and resume to:
